

RenR 480/711

Hints for projects and course notes

Final projects (711 students)

Website:

- Add the statistical analysis

Presentation:

- Say a few words about significance of your effects
- Stay within 5 min

Extended deadline for the website: **Dec 10, 11:59pm**

Course notes for RenR480 students

As a minimum:

- Combine electronically or print out lecture slides and slot in the labs
- Organize in a physical folder/binder or as a single pdf file or as a zip-folder

For extra credit:

- Add notes and own thoughts/own clarifications
- If you did any extra work: this would be the place to include it
- Add an organization system (tabs, indexing etc.)
- Handwriting or not – either way is fine
- Effort will get the top grade

→The end result should be a collection that you can refer to later

Submit by email to david.montwe@ualberta.ca or bring to the exam to submit on Dec 7
